DON'T MISS THIS MEETING !

The WELLESLEY AMATEUR RADIO SOCIETY will hold its January meeting on Tuesday, January 9th at 7:30 PM in the Club Room, located in the basement of the Wellesley Hills Branch Library.

It is a pleasure to have club member, Henry Cross, W100P speak to us on the "Field Effect Transistor and RF Overload". Did you see Henry's article, "An Obsolete 50 MC Mobile Receiver" in the November and December 1967 QST? This meeting should be most worthwhile. Please plan to mark the date in the log.

Jack and Pam Rathmell's Novice Course will begin on Thursday, January 18th at 7:30 PM. Do you know anyone interested in the Novice exam? Why not encourage them to take this course?

Hank Robinson's General Course is going well. He will also welcome new members.

The Club welcomes anyone interested in either the monthly meetings or other Club activities.

PLAN TO BRING A FRIEND

George: Any chance of getting the path plowed before next Tuesday night? I hope so.

Walt.
